
CARE INSTRUCTIONS

USE AND CARE OF YOUR LAMP

Your lamp is made out FSC® certified natural wood veneer treated with our patented finish, Timberlite®.

This treatment both protects and safeguards the wood veneer against breakages.

Depending on the type of lamp use a feather duster, soft cleaning cloth or damp cloth for cleaning. On our more delicate shades, like those made from wood strips, a feather duster or an air blower is preferable. In our more solid shades a damp cloth may be used. Clean only the flat surface of the veneer with the cloth, and please avoid any moisture contact along the edge of the veneer.

ACRYLIC DIFFUSERS

The acrylic diffusers on your lamp can be cleaned with a regular window cleaning spray and a soft cloth. Do not use solvents of any kind.

METALLIC SURFACES

The metallic surfaces should be treated with care and cleaned with a soft damp cloth only. Make sure that moisture does not penetrate joins or junctions between metal parts. Do not use solvents of any kind.
